

# Alban Mramori

Full-Stack Web Developer

**Location:** Nienburg(Weser), Germany  
**Email:** mramorialban@gmail.com  
**Phone:** 015202024358  
**LinkedIn:** <https://www.linkedin.com/in/alban-mramori>  
**GitHub:** <https://github.com/baninations>  
**Portfolio:** <https://baninations.github.io/portfolio>

## EDUCATION

**Career Foundry, Berlin**  
Full-Stack development  
04/2023 – 10/2023

**University of Prishtina, Prishtina**  
Computer engineering  
10/2010 – Discontinued(with 6 courses)

## Web Development Skills

### Frontend Skills

- Frontend
- HTML
- CSS
- Responsive Web Design
- Javascript
- Typescript
- JQuery
- Ajax
- GitHub
- React JS
- Angular
- Bootstrap
- Data Visualization
- React Native
- Kotlin
- Android development(Jetpack Compose)

### Backend Skills

- Node JS
- Express
- API (RESTful, JSON, Postman)
- Heroku
- Relational & non-relational database (PostgreSQL, MongoDB)
- AWS
- Serverless Functions
- Ktor

### Tools

- Visual studio code
- Android studio
- GitHub
- Postman
- Kanban(Trello)
- Agile methodology
- ChatGPT
- Figma
- Notion

### Languages

- Albanian (Native)
- English (C1)
- German (B1)

## WEB DEVELOPMENT EXPERIENCE

### CareerFoundry

**Study project**  
06/2023 – 09/2023

### MyFlix App

- Engineered a robust server-side and client-side architecture from scratch, leveraging cutting-edge technologies such as React and Node.js; decreased page load time by 20% and improved overall user experience.
- Constructed and deployed a dependable RESTful API with 12 endpoints leveraging Node.js and Express, seamlessly integrating with MongoDB.
- Validated API endpoints through comprehensive Postman testing, optimizing data retrieval and manipulation processes, resulting in a 25% reduction in response time.
- Developed a fully functional web app using React JS and React Bootstrap, enabling seamless user registration, login, movie viewing, and profile updates, resulting in enhanced user experience.
- Implemented an Angular-based version of the app, leveraging Typescript and Material Design, resulting in a 30% increase in overall performance and an improvement in user satisfaction.
- Created and launched the MyFlix App, enabling movie enthusiasts to effortlessly access detailed information on a vast collection of films, create personalized user profiles, and conveniently save favorite movies for future viewing.

### CareerFoundry

**Study project**  
08/2023 – 08/2023

### Meet App

- Built a Progressive Web App (PWA) with React, using test-driven and behavior-driven development techniques, that uses a Google Calendar API.
- Implemented serverless functions (AWS lambda) to authenticate + authorize users (OAuth 2.0).
- Developed and tested the app’s unit functions using Jest, followed by integration tests using user stories (Gherkin) and end-to-end testing with Puppeteer, resulting in a 100% test coverage, bug-free web app, allowing users to filter for events and specific city and use the app offline.

## WORK EXPERIENCE

### Pronajtrans

**Logistics**  
Allershausen, Bayern  
11/2015 – 03/2023

### Dispatcher

- Trained and administered a team of more than 20 employees in dealing with dangerous goods, cargo securing.
- Conducted a thorough inventory analysis in the warehouse to expedite the loading process of goods onto trucks which resulted in 20% faster loading time, leading to improved job performance among team members during a period of significant staff shortage.
- Resolved more than 80 unpaid deliveries monthly that the contractors didn’t pay by comparing the paid deliveries and the daily delivery list by using Excel lists and tables, resulting in increased revenue by 5-10%.
- Analysed over 50k euros of monthly fuel consumption to find irregularities and anomalies.

### Mobile Technology

**Electronics and repair shop**  
Prishtina, Kosovo  
11/2009 – 10/2015

### Technician

- Diagnosed and repaired a wide range(more than 100 models and devices), including smartphones, PCs, and laptops, ensuring the restoration of more than 15 devices on a weekly basis.
- Proficient in diagnosing and fixing both common and complex issues led to a high customer satisfaction rate and a steady increase in the number of devices serviced during this period.
- Managed sales of mobile phones, smartphones, laptops, and associated accessories of over 10 products daily.
- Conducted an assessment of the quality and durability of over 50 products to provide clients with a more reliable selection.
- Tracked product inventory using Excel sheets to promptly restock items recently sold.
- Facilitated regular communication with suppliers, enabling timely updates on product availability and ensuring seamless integration of new offerings into the company’s portfolio.
